

```
parlai.agents.tfidf  
_retriever.build_tfidf.get  
_count_matrix
```

A diagram showing a transition from a method call to a function call. A gray box on the left contains the text 'parlai.agents.tfidf \_retriever.build\_tfidf.get \_count\_matrix'. A blue arrow points from this box to a white box on the right. The white box contains the text 'parlai.agents.tfidf \_retriever.build\_tfidf.truncate'.

```
parlai.agents.tfidf  
_retriever.build_tfidf.truncate
```
