

parlai.agents.transformer.modules.  
TransformerDecoderLayer.forward

```
graph LR; A[parlai.agents.transformer.modules.  
TransformerDecoderLayer.forward] --> B[parlai.agents.transformer.modules.  
TransformerDecoderLayer._create  
_selfattn_mask]
```

A diagram showing a call from the `forward` method to the `_create_selfattn_mask` method. A blue arrow points from the left box to the right box.

parlai.agents.transformer.modules.  
TransformerDecoderLayer.\_create  
\_selfattn\_mask
