

parlai.agents.remote
_agent.remote_agent.RemoteAgent
Agent.act

```
graph LR; A["parlai.agents.remote_agent.RemoteAgent  
Agent.act"] --> B["parlai.agents.remote_agent.sanitize"]
```

A diagram showing a call from the `RemoteAgent.act` method to the `RemoteAgent.sanitize` method. The source box on the left is shaded gray and contains the text `parlai.agents.remote_agent.RemoteAgent` and `Agent.act`. A blue arrow points from the right side of this box to the left side of a white box on the right. The white box contains the text `parlai.agents.remote_agent.sanitize`.
