

parlai.core.build_data.download
_multiprocess

```
graph LR; A[parlai.core.build_data.modelzoo_path] --> B[parlai.core.build_data.download_multiprocess];
```

A diagram showing a dependency between two code paths. On the right, a white box with a black border contains the text 'parlai.core.build_data.modelzoo_path'. A blue arrow points from this box to a gray box with a black border on the left, which contains the text 'parlai.core.build_data.download' followed by '_multiprocess' on the next line.

parlai.core.build_data.modelzoo_path
