

light_chats.graph.Inventory
Function.func

```
graph LR; A["light_chats.graph.Inventory  
Function.func"] --> B["light_chats.graph.GraphFunction.get_name"]
```

A diagram showing a function reference. On the left, a gray rectangular box contains the text "light_chats.graph.Inventory" on the top line and "Function.func" on the bottom line. A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text "light_chats.graph.GraphFunction.get_name".

light_chats.graph.GraphFunction.get_name
